

COMPLETE AND RETURN ONLY THIS FORM WITH YOUR INJECTORS

Please follow all instructions, which can be downloaded from: www.DBWLLC.net that will guide you thru the three-step process for proper injector installation and function. **FAILURE** to follow these steps **WILL** result in incorrect engine operation. **DO NOT** skip any step since all are required before driving the car.

- STEP 1 - Install new injectors start engine and check for leaks.**

- STEP 2 - Adjust Mechanical Injection Timing - (VCDS required) This is performed in Basic settings mode, and we insist that timing be set to the top of the timing range to provide the cleanest starting, best fuel economy and best performance from your engine.**

- STEP 3 - Adjust the IQ value (Hammer Mod) 5.0-6.2 is the desired idle value to start with.**

Return injectors in enclosed USPS box to: **DBWLLC**

**We require all injectors be
Returned within 14 business
Days for a full refund.
No exceptions**
